I am a creative and enthusiastic designer, who enjoys both interior and exterior design. A reliable, conscientious and flexible team worker, I am well organised, confident and quick to learn. Studying as an Interior Architecture and Design student at University of Portsmouth. My aim is to further my knowledge and experience in this field and work as part of a team to learn to produce innovative designs. I am looking for a placement year to support me in becoming an influential Designer, particularly in Residential/ Historic design, as well as help further my professional skill set acquired from relevant work experience.

EDUCATION

2015-PRESENT BA (HONS) INTERIOR ARCHITECTURE & DESIGN UNIVERSITY OF PORTSMOUTH

First year grade, 2:1.

During my first year I developed my technical drawing skills and the way in which I communicate and present my ideas. Along with my model making abilities and research skills these will assist me when responding to the brief and clients ensuring present my ideas in a clear and organised manner.

- Time management
- Working as part of a creative team
- Technical drawing
- Observational sketching
- Site analysis
- Scale model making
- Creating relevant diagrams
- Orthogonal drawing

Second year grade, First.

My second year has allowed me to develop these skills much further, whilst acquiring many more new ones, such as generating AutoCAD drawings, learning construction methods and materials, and understanding the history and theory of interiors. Softwares I am proficient in:

- Photoshop
- AutoCAD
- InDesign
- Illustrator
- Revit
- Sketchup
